

Jeel Dhaneja

I am Jeel, I like to work with languages like php, web designing, python. I'm specialized in designing & interested in developing new projects and launching them.

PROJECTS

ONLINE SURVEY

Market research and marketing research may sound similar, but are very different concept. we have designed a vey unique website that will review the customer feeback.

LIFE TRACKER

This project was designed for the patients convenience they can get the track of their medical history, allergies', d seases.

They can even know the prescription and the medicines they used through this application
